**Review Date:** July 2022

## Disability Equality/ Accessibility Plan

This plan **MUST** be read in conjunction with The Valley Partnership Disability Equality Scheme and Policy.

### Scope of the Plan

This plan intends to cover all the duties for disability equality, inclusion and accessibility. It is also in response to consultations as dictated by our disability Scheme:

**A. Improving the physical environment of our schools for the purpose of increasing the extent to which disabled individuals are able to take advantage of education and associated services.**

*It will also, in the case of both schools, also address the environment as to accessibility for adults, staff and parents.*

This strand of covers aids to improve the physical environment of the school and physical aids to access education. The physical environment includes things such as steps, stairways, kerbs, exterior surfaces and paving, parking areas, building entrances and exits (including emergency escape routes), internal and external doors, gates, toilets and washing facilities, lighting, ventilation, lifts, floor coverings, signs and furniture. Aids to physical access include ramps, handrails, lifts, widened doorways, electromagnetic doors, adapted toilets and washing facilities, adjustable lighting, blinds, induction loops and way-finding systems.

Physical aids to access education also covers things such as ICT equipment, enlarged computer screens and keyboards, concept key boards, switches, specialist desks and chairs and portable aids for children with motor coordination and poor hand/eye skills, such as extra robust scientific glassware and specialist pens and pencils.

In maintained schools the provision for pupils of a special piece of equipment or extra assistance will be made through the SEND framework and to a lesser extent through the planning duty which applies to all schools. The distinction between auxiliary aids and services provided through the SEND route and those provided under the planning duty is that the SEND duties relate to the individual, whereas the planning duty relates to the provision of aids or services in terms of the population (and future population) of the school. For example, a pupil with visual impairment might have low vision aids provided through the statement of SEND but the school might as a general measure provide blinds and adjustable lighting through the planning duty.

B. **Increase the extent to which disabled pupils can participate in schools' curriculum.**

*It will also, in the case of both schools, consider the extent associated adults can participate.*

This strand of the planning duty will help to improve access to a full, broad and balanced curriculum. It covers a range of elements including ensuring that teaching and learning is accessible through school and classroom organisation and support, especially deployment of staff, timetabling, curriculum options and staff information and training.

Schools will be expected to plan to improve progressively access to the curriculum for all disabled pupils although many adjustments to access will be dependent on individual needs and may be provided through the SEND framework. The accessibility strategies and plans will help to ensure that schools are planning and preparing to respond to the particular needs of individual pupils.

C. **Improving the delivery and expression of information to pupils with disabilities.**

*It will also, in case of both schools, consider the delivery and expression of information to adults involved with the school community.*

This part of the duty covers planning to make information normally provided by the school in writing to its pupils – such as handouts, timetables, textbooks, information about school events – available to disabled pupils. This will include alternative formats such as Braille, audio tape and large print and also the provision of information orally, through lip speaking or sign language, through a recognised symbol system or ICT. This information should also be made available within a reasonable time frame and take account of the pupils' disabilities and pupils' and parents' preferred formats.

**Actions to ensure equality for those with disabilities**

1. We shall undertake a regular disability audit, this will include talking to those adults with SEND and pupils
2. As a result of the audit, we shall:
  - write an action plan which includes targets
  - make the policy and targets known to all teaching and ancillary staff, pupils and parents
  - monitor the success of the plan
  - the Plan will be reviewed annually by Governors with support from staff reviews

3. The Governing Body will report on how targets have been met and what impact they have had on the achievements of pupils with disabilities). |This may be done through newsletter or website

## **Monitoring**

The Valley Partnership recognises that monitoring is essential to ensure that pupils with disabilities are not being disadvantaged, and that monitoring leads to action planning.

We will monitor needs and effects through:

- Admissions
- Attainment
- Attendance
- Exclusions
- Response to teaching styles/subject
- SEND Register
- Setting/groups
- Effects of the New national curriculum & assessments
- Extra-curricular activities
- Selection & recruitment of staff
- Governing body representation
- Parents attending consultation meetings
- Parents' involvement in the life of the school (representation on PTFA, attendance at parents' evenings, in the classroom, school productions, sports day, fetes etc)

## FINAL REVIEW of PAST PLANS

### INCREASING ACCESSIBILITY-Strand A

**A. Improving the physical environment of school for the purpose of increasing the extent to which disabled individuals are able to take advantage of education and associated services.**

*It will also, in the case of both school, also address the environment as to accessibility for adults, staff and parents.*

Staff awareness raised through dedicated section in ½ termly meetings for SEND. Staff attended training courses on range of disabilities. Sloping board purchased and special hand hugger pencil grips as needed. New special cushions have been purchased to support those who need it with sensory and autism difficulties. 20 new lightweight, solid state laptops purchased with wireless network to increase speed of response. Gate access restricted at BPS to support SEND pupil with self-regulation difficulties. Ipad bought at BPS to allow for specialist software for self-regulation- allowing calming down. Specialist ‘mindfulness bubbles to support those with anger issues and anxiety. Access to these resources is through a direct hands on display. Erection of ‘Calm areas and tents with direct pupil access at BPS to support inclusion of behaviourally challenging children with self-regulation and focus difficulties. Specialist table outside dining area to allow pupil to eat close but not in the dining room. System for opening side gate earlier to support access. Carp ark gate opening for specific help as needed.

### INCREASING ACCESSIBILITY-Strand B

**B-Increase the extent to which disabled pupils can participate in schools’ curriculums.**

*It will also, in the case of both schools, consider the extent associated adults can participate.*

Staff awareness raised through dedicated section in ½ termly meetings for SEND. Staff attended training courses on range of disabilities. 20 new laptops purchased, new lightweight, solid state with wireless network put in to enable quicker internet and server access. New software purchased to support phonic development and reading e.g. ‘Nessie’, Tailored curriculum e.g. outdoor learning, individualised planning adapted daily to current attention e.g. Horrid Henry, Additional resources developed e.g. making of special sensory light box ( made from cardboard), binoculars acquired for bird watching, digging area at BPS, tents erected for quiet space. Additional adults taken on residential to enable overnight stays for all pupils- including those with eating concerns, toileting difficulties, social and emotional needs, and special SEND needs e.g. Autism, ADHD, Sensory processing and Downs syndrome.

### INCREASING ACCESSIBILITY-Strand C

**C Improving the delivery and expression of information to pupils with disabilities.**

*It will also, in case of both schools, consider the delivery and expression of information to adults involved with the school community.*

Much work has been done in this area:

Staff awareness raised through dedicated section in ½ termly meetings for SEND. Staff attended training courses on range of disabilities. New staff training in mindfulness and emotional and mental health. Participation in parent workshops for emotional and mental health in order to work as a supportive team for children’s learning. Reviewed PSHEC (personal, social, health and citizenship) curriculum and added emotional and mental health. New emotional and mental health and well-being policy. Emotional and mental health added to mission statement and part of national pilot for emotional and mental health WEE ( We Eat Elephants) that looked at physical, emotional, body and thought processes linked to emotional well-being a. it supported SEND differences and gave strategies for SEND to help self-regulate and understand feelings and behaviours. Introduction of the LEARNING pit approach in teaching and learning and an introduction to Meta cognition. Specialist support has been purchased to introduce the children to mindfulness. Additional laptops new lightweight, solid state that have been purchased with wireless network put gain quicker internet and server access. Internet developed and use of e-mail for all staff- planning sent in advance with details of SEND needs and support. Website up to date. Offer a reading service to parents with difficulties. Specialist collective worship theme ‘same but different’,

### **Other Collated data through discussion**

The data collated reveals that with the changes made over the past few years of the accessibility plan, coverage of inclusion is good.

Points that were raised are;

Equality of opportunity based on income- now write to charities for contributions and have fund raising to support payment of families on low incomes.

Accessibility of those adults who have low literacy skills- reading communications in quiet place, discrete and as requested by adult.

Availability of information on the internet- website more up to date

Quality of ICT machines and reliability of internet links- new laptops across both schools.

Software suitability and extra support- new system purchased that also help with programme development – BOXALL assessment tool

New Issues:

Equality of opportunity based on income- economy shrinking- music sessions

Outside agency family support-early help and sign posting services stretched?

Accessibility of Burescombe to adults and children whilst school is awaiting major building repair work

### **RATIONALE for new PLAN**

Some of these points are not directly related to a disability equality plan they encompass inclusion aspects. In order for equality for this entire plan includes issues for accessibility, inclusion and disability equality.
