

Alien Pizza

Ingredients:

For the dough - crushed stones, slimy slugs and dirty pond water.

For the sauce - squelchy mud, smelly frogspawn and rotten eggs.

For the topping - crunchy snails, moldy carrots and stinky cheese.

What you do:

- First, carefully mix the crushed stones, slimy slugs and dirty pond water to make the dough.
- Next, slowly roll out the dough onto a table, making it into a circle shape.
- Then, quickly boil the squelchy mud, smelly frogspawn and rotten eggs until they make a gloopy paste.
- After that, evenly spread your paste over the dough.
- Penultimately, generously sprinkle the crunchy snails, moldy carrots and stinky cheese over the paste.
- Finally, patiently cook your pizza in a piping hot oven until it is burnt to a crisp!

Top tip:

Wear gloves to make your pizza so you do not have to touch the disgusting ingredients!
