

PSHE – Returning to a full classroom

WALT: Identify the important skills needed to make our classroom a great place for everyone to be.

Returning to school and being with your normal class again, is very exciting for children, parents and teachers. We want to ensure our classrooms have a positive mindset. This means making **positive** thinking a habit, continually searching for the good and making the best out of any situation you find yourself in.

Lots of us will have used a range of coping strategies at home and in school to ensure we remain happy. **Some** of the coping strategies you will have used, and their definitions are listed below:

Resilience: the ability to recover quickly from difficulties or challenging situations.

Having an open mind: willing to consider new ideas.

Teamwork: the collaborative effort of a group to achieve a common goal or to complete a task.

These skills are very important when becoming a full team in our classrooms again.

Talk with your family, there will be other strategies you will have used.

Your Task

To create a detailed poster about making our classrooms a good place to be for everyone. The poster needs to be worthy of hanging in a gallery so allow yourself time to complete it.

You can write, draw, paint or try wordle, the choice is yours, but it needs to be clear, eye catching and purposeful.

Bring it to school on Monday 8th March.
